i'bbz

*The little bee from Barbizon
made by Jo and Françoise Montchaussé*

*In 1995, we had the idea to design
a climbing mattress, named
the **Triple Pad[®]**. In order to
commercialize it, the following year,
we created the **i'bbz** company,
acronym of our village Barbizon,
located on the verge of the forest
and some of the most
iconic climbing sites
like le Cuvier or Apremont.*

*Its DNA is a permanent curiosity,
a thirst for discovery to reflect and
to offer our bests
innovating products made*

**by climbers
for climbers
and every nature lovers.**

*Field-tested,
in the forest of Fontainebleau.*

TRIPLE maxX™

The Triple maxX™ presents the same advantages as the Triple Pad® designed in 1995.

Compact, useful and light!

The Triple maxX™, despite its size, is still very easy to carry both in the car's trunk and at the foot of the rocks.

You will enjoy its lightness, during your journey.

And most importantly... an excellent cushion!

The thickness and quality of the foam provide it an outstanding cushion...

The size of the reception area ensures an authentic comfort during the falls...

Main features

Dimension/unfolded: 150 x 100 x 11 cm

Dimension/folded: 50 x 100 x 33 cm

Weight: 6 kg

Easy replacement of the foam

Triple portage:

Anatomic handle, over-the-shoulder padded strap or backpack-style straps

Materials

Foam with a double density: 4 cm + 7 cm

High quality fabric cover 500 D

Buckles in aluminium

Waist belt and chest belt

i'bbz

V15™ magnetik

**Magnetik V15 is the last born in products i' bbZ.
Its original design combines a minimum size,
facilitating storage and an automatic closing
that prevents chalk spilling.**

Main features

Dimension/unfolded: 19 x 8 cm

Dimension/folded: 19 x 4 cm

Weight: 220 g

Materials

Neopren

Neodyme magnets

RipStop, polar fleece

Buckles in aluminium

Double closure:

- patented magnetic closure
- classic drawstring closure

Simplicity

*Thanks to the automatic closure magnetic system,
The bag is always closed. The natural passage of the hand,
into the slot of the upper part, opens the bag and gives
access to chalk.*

Compactness

*Thanks to the spring system, a simple compression of the bag
allows you to go from a height of 19 cm to 4 cm, for storage.*

TRIPLE TUBE™

An essential accessory to brush the faraway holds. This telescopic pole includes 3 parts for a minimal space and a maximal length, to brush the holds up to 5m.

Maximum height: 2.50m

Minimum height: 1.01m

Diameter: 26/28 mm

Weight: 560 g

- 3 telescopic portions
- fits only FriXion+ and FriXion brushes
- Double nozzle manufactured on 3D printer

 **Made in France**

Materials

Aluminum

TPU

Double XXL brush

Features

Maximum length: Triple Tube 3,5m
Double Tube 2,4 m

Minimum length: 1,2 m

Diameters: 32.5/ 29 /25.5 mm

Weight: Triple Tube 1 100 g

Double Tube 750 g

Head: Aluminium

Pole: constructed from 1 mm thick aluminium tube, cataphoretically painted black

Eccentric locking mechanism

The angular position of the brush is locked by a **cam lever** for instant locking/unlocking.

The length of the pole can be easily adjusted at will using an **eccentric mechanism**.

A simple, **non-tilting adapter** is also adaptable to the **Tube Z™**, with a Frixion XXL brush.

Engineered and assembled in France

Thanks to its robustness and rigidity, the **Tube Z** model is particularly suitable for intensive use indoors or during national or international competitions.

Buckles aluminium closure

Description / inside

Padded bottom (5 mm foam)

Large zipped mesh pocket

Shoes side pockets

Fits a 17 inch laptop in a padded compartment

5 additional pockets

Security pocket with key clip

Materials

Honeycomb Nylon

Climbing Tape

STRAP'Z[®]

Adhesive tape of various colors.

Characteristics

- Sport bandage*
- 100 % cotton*
- Strong zinc oxide adhesive*
- Serrated edge makes tearing easy*

CHALK

ZeWhite™

In climbing, like others sports, chalk is intended to improve performance.

It limits the effects of hands perspiration thanks to its high absorbency.

Characteristics

350 g packaging in re-sealable, zippered plastic bags.

 **Made in France**
